

## Flippin' Fun Balloon Bunny on Tri-Fold Card

### Stamps, Dies & Fabric:

- 11459MC Balloon Bunny Clear Set
- IAD-014 Crafty Cutts Balloon Bunny
- SQRH2SH Rainbow Hologram to Silver Hologram Sequin Fabric

### Cardstock:

- A-6 Tri-Fold Card White

### Other Supplies:

- Black Dye Ink Pad
- Colored pencils or markers (to color bunny)
- Bone Folder & Ruler or Other Scoring Tool
- 1/4" Scor-Tape or Red Line Tape

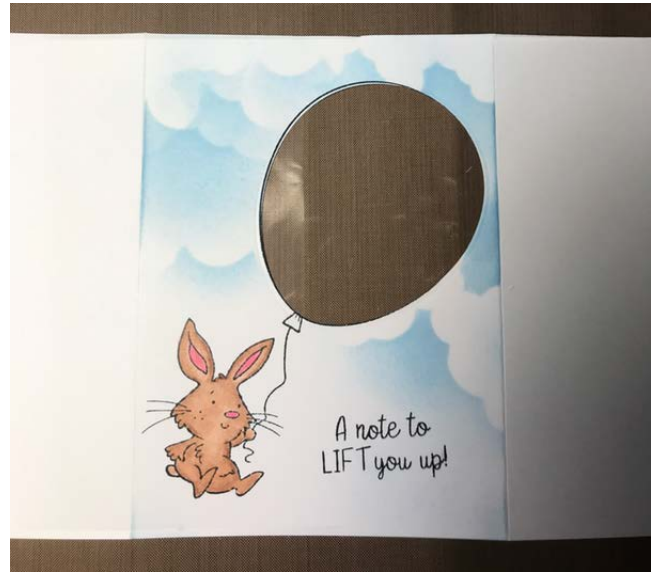

1. Stamp 11459MC Balloon Bunny images in center panel of outside of tri-fold card. Color bunny image and balloon tail as desired. Stamp or stencil background as well, if desired.

2. Create mask for balloon image, by using balloon die to cut a scrap piece of card stock. Use lightweight cardstock, to avoid indentations when using as a mask. The mask will serve as a carrier piece for when cutting out the center of the balloon on your stamped image, to ensure proper alignment.

- Place mask over top of stamped balloon image, and secure with removable tape. Place balloon die inside mask, cutting side down, and run through die cutting machine. Once cutting is complete, remove die, mask and cut piece from tri-fold card.

- Flip tri-fold card over to inside of card. Place Scor-Tape or Red Line Tape around all edges of die cut area, placing tape end to end for secure adhesion.

- Using scissors or rotary cutter, cut a 4" x 4" square of Rainbow Hologram to Silver Hologram Sequin Fabric.

6. Adhere fabric to tape, sequin side down, onto the die-cut area. Make sure that the fabric is flat and that sequins are positioned to flip in desired direction.

7. Make sure that fabric is taut, and apply Scor-Tape or Red Line Tape to all edges of fabric, as well as to the back of fabric so that when “flippin” occurs, material will not sag. Apply Scor-Tape or Red Line Tape to perimeter of inner panel, where fabric has been adhered, so that left panel will adhere nicely to inner panel, covering the backside of the fabric.

8. Flip tri-fold over to outside and fold left panel inward and adhere to placed tape, so that the folded left panel covers the area where the fabric has been placed.

9. Flip tri-fold to stamped image side, and card should now open correctly. Stamp sentiment inside of card if desired.
