

Instructions:

1. Put die onto correct size outline, using bold black lines as guides. Red lines indicate cutting lines and thumbslot; rotate die as desired to position thumbslot where you wish. Attach die to template with removeable tape placed over scoring line on die. (cont. below)

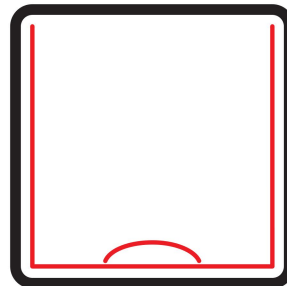

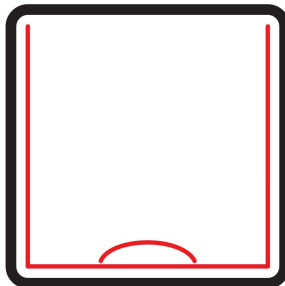

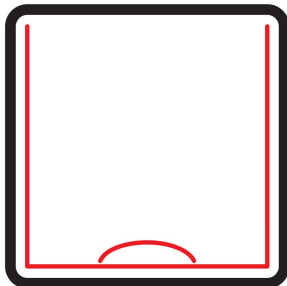

2. Line up cardstock panel with outer colored lines (blue lines are for 3 3/4\" x 5\" panel; green lines are for 4\" x 5 1/4\" panel), or center the panel if using a different size.
3. Hold cardstock panel in place with removeable tape, and run through die-cutting machine.
