

## Penguin Corner Pop-Up Gift Card Holder

*Adapted from [www.lisasstampstudio.com](http://www.lisasstampstudio.com)*

### Stamps:

11417MC Happy  
Holiday Penguins Clear  
Set  
11270MC Christmas  
Kitties & Pups #2 Clear  
Set

### Cardstock & Paper:

White  
Green  
Black  
Patterned Paper #1  
Patterned Paper #2  
Patterned Paper #2

### Other Supplies:

Black Dye Ink Pad  
Alcohol Ink Markers  
1/8" Scor-Tape  
Bone Folder & Ruler or  
Other Scoring Tool

2 1/4" & 2 1/2" Circle  
Punches or Dies  
2 5/8" & 2 7/8" Scalloped  
Circle Punches or Dies

1. Score 8" x 8" white cardstock at 4", turn piece 90° clockwise, and score at 4" again to divide panel into four equal quadrants. Then score from one corner to the opposite corner diagonally across the panel once.

2. Pre-fold along all three score lines in both directions, using bone folder to help flatten creases if desired. Close the gift card holder, leaving the folds at the top and left.

3. Layer 3¾" x 3¾" green cardstock onto 4" x 4" black cardstock, and adhere to front of card. Layer 1½" x 4" patterned paper #1 onto 2" x 4" black cardstock, and adhere to center of gift card holder front.
4. Stamp tree penguin image from 11417MC Happy Holiday Penguins Clear Set onto 2½" x 3¼" white cardstock, and color as desired. Layer onto 2¾" x 3¼" green cardstock, and layer again onto 3" x 3¼" black cardstock. Adhere layered piece onto center of gift card holder front.
5. Open card holder, and adhere 3¾" x 3¾" patterned paper #2 to inside left of gift card holder.
6. Stamp "Hope your Christmas" sentiment from 11270MC Christmas Kitties & Pups #2 Clear Set onto white cardstock that has been punched or die cut into 2½" circle, and layer onto green cardstock that has been punched or die cut into 2⅞" scalloped circle. Adhere layered circle onto center of inside left panel.
7. Layer 3¾" x 3¾" patterned paper #1 onto 4" x 4" green cardstock, and position layered panel so upper left of panel is covering the upper left triangle along the back of the gift card holder on the inside. Place adhesive onto the upper left triangle area *only*, and press panel carefully to adhere so glue or tape does not extend past the edges (otherwise the card will get stuck in the closed position after it dries).
8. Stamp "but also the kind that unfold" sentiment from 11270MC Christmas Kitties & Pups #2 Clear Set onto white cardstock that has been punched or die cut into 2¼" circle, and layer onto green cardstock that has been punched or die cut into 2⅝" scalloped circle. Adhere layered circle onto center of inside back panel.
9. Place ⅛" Scor-Tape along lower edge of the inside bottom/base, and press left triangle inside the holder downward to form a pocket to hold the gift card.
10. Cut 4" x 4" patterned paper #1 from one corner to the opposite corner diagonally across the panel to make two identical triangle shapes. Adhere triangles to base of the holder as shown.
11. Insert gift card into pocket, and close card holder by tucking in back panel and flattening holder.
